

Residential door solutions

svedex
interior door systems

Welcome to a new door set solution

Svedex is a Dutch, family owned company producing internal doors since 1954. We supply factory finished white lacquered doors and frames with the unique Superlak®. Our Superlak® is the strongest lacquered finish available in the door market, and a standard for all our doors (NFR and FD30).

For more than 40 years we are supplying our door sets to residential projects in Europe including UK. With our state-of-the-art production facilities we supply affordable ecofriendly doors, with consistently high quality finish. In addition to our standard plain doors we have a large collection of affordable design doors.

>> In this brochure you will find all
the benefits for our Svedex doors
