# PERGOLAS

LIFE IS OUTSIDE

---

We believe in miracles. We believe in the inexhaustible potential of human imagination. We believe in a future that pushes the boundaries of what is possible. We are proud to be trendsetters and our best products are the first choice for those with exquisite taste. For those who know that nothing is impossible. For you.

Roman Pirnar

*Owner and director of Pirnar d.o.o.*

## LIFE IS OUTSIDE

You've arrived home and felt peace within yourself. Finally. Your oasis of peace, your refuge. All the day's noise and commotion slowly fade away. With deep satisfaction you look back upon a successful day and you know that it will be followed by a precious time, devoted just for you. You step out of the house barefoot and see the soothing colours of serenity before you. You breathe in and slowly back out. Your heart is finally home. Under the loveliest, most refreshing shade, where life blossoms again and replenishes you with new energy, letting you gaze upon beauty again and listen attentively to the harmony of the real world.

---

## DISCOVER NEW DIMENSIONS OF YOUR HOME.

*Nowhere else will you find such solid, durable, and comfortable pergolas with a pure and aesthetic design.*

### **Ingenious construction, designed exclusively for pergolas.**

Our robust construction has no visible screws, and so it does not require any additional assembly procedures. Elegant and refined design.

### **Exceptional structural strength.**

Normal pergolas have columns made of square tubes, while **PIRNAR** pergolas employ columns with an incredibly solid internal cross structure. They can withstand severe gusts of wind and up to 550 kilograms of snow per square meter.

### **Ultimate watertightness.**

Perfect sealing ensures the whole pergola is watertight, from its louvres to the ground. Extremely wide profiles prevent water from overflowing even during heavy downpours.

### **Easy and fast installation.**

Sophisticated design with modular profiles enables easy and fast installation. The entire pergola can be assembled in just a few hours, with uncompromising quality and lower costs.

### **Invisible and noiseless motors.**

Pirnar pergolas are equipped with a unique and patented silent rotation system. The rotary motor is hidden in the first louver, where it is protected from all external influences, ensuring that it keeps working flawlessly for years to come.

### **Huge area with no columns.**

You can cover up to 50 square metres using only four columns, without any additional support elements.

### **Additional equipment for maximum comfort.**

Choose between motorised ZIP screens, sliding panels, wind protection from sliding glass panels, and LED lighting with dimming options.

### **All custom-made, accurate to the last millimetre.**

Designed to the last detail, each **PIRNAR** pergola is made according to your wishes and measurements.

---

## WELCOME HOME

Home isn't just the place where we live. It's not just a shelter from the storm and a safe haven where our heart comes to rest. Home is an endless source of inspiration that opens the door to new dimensions and ideas of living. It can turn into a cinema under the stars, where you can watch your favourite movie with a special someone and cherish countless unforgettable moments.

## CREATE THE PERFECT SHADE EVEN ON A TINY PATIO

Comfort is found in a light and simple but also strong and effective pergola, one that can cover the garden or small patio of a modern apartment or row home. A light and functional model with all the best features of the Pirnar brand. Its streamlined concept accentuates everything an outdoor space requires.

**Small area of 4 x 5 m,**  
making it perfect for small  
patios and gardens.

**Single layout as freestanding,**  
wall-mounted, or built-in.

**Light construction**  
with dimensions of  
120 x 120 mm.

**Effective drainage**  
with a special watertight system from  
the top to the bottom of the column.

## **THE BREAK YOU DESERVE**

Let's sit in the beautiful shade of a pergola after a busy hot day and just relax. And breathe in and breathe out. Let's be confident and sure about the things that mean a lot to us.

## OUTDOOR LIVING – IT'S GRAND!

The bioclimatic pergola Grande is much more than just an obvious choice among pergolas. It provides controlled shading and complete protection from rain. Its extremely solid construction makes it possible to design for large dimensions even in its freestanding version. Its stunning features will make you want to spend most of your free time outdoors.

*Efficient drainage system from the louvers into the floor.*

**Extremely solid construction** with 120 by 120 mm dimensions.

**Minimalist design** with clean surfaces with no visible components.

**Extremely wide profiles** prevent water from overflowing even during heavy rain.

**Very large dimensions** of up to 6.5 by 6.5 metres.

**Effective sealing** with perfect watertightness across the entire pergola, from the louvers to the ground.

## **TIME FOR FAMILY AND FRIENDS**

The tastiest lunch, the best party, the most romantic evening, and the most tranquil peace can be found ... outdoors. Under the pergola Grande.

## THE ULTIMATE OUTDOOR SPACE SOLUTION

Our Ultra line makes up one of the most robust pergolas on the market. With the option of extraordinary dimensions, the space in front of your home can transform into an incredibly relaxing oasis. Pergolas Ultra are especially perfect for areas with inclement weather but, most of all, they contribute a stunning architectural addition to hotels, restaurants, and shopping centres, since they cover and effectively protect large areas with fewer columns.

*Reinforced drainage system from the louvers into the floor.*

**Reinforced construction** with 160 by 160 mm dimensions.

**Minimalist design** with clean surfaces and no visible components.

**Prefabricated modular construction** with no additional drilling or cutting.

**Exceptional size** of up to 7.2 by 7.2 metres in length without any additional columns, making it one of the largest pergolas on the market.

**Effective sealing** with perfect watertightness across the entire pergola, from the louvers to the ground.

**Extremely wide profiles** prevent water from overflowing even during heavy rain.

## **A SPECIAL PLACE FOR THE UNFORGETTABLE EXPERIENCES**

When dreaming about ways to make our homes even more perfect, creating more space is most often at the top of the list. Installing a pergola Ultra can help double or even triple the size of a living room, patio, or dining room.

---

## MAGNIFICENT COMBINATIONS

When you close our eyes and think of home, you probably think of a place where all the architectural elements come together to form a flawless harmony. Whether you live in a cosy stone Mediterranean house or enjoy a typical Alpine home, **PIRNAR** pergolas offer a wide range of installation options and can adapt perfectly to your wishes and needs.

## A DESIGN THAT ADAPTS TO YOUR NEEDS

A simple assembly system with modular profiles enables several different construction layouts, depending on the specifics of the building and your wishes:

- free-standing pergola,
- wall pergola,
- built-in pergola,
- custom pergola.

**Free-standing pergola**

**Wall pergola**

**Built-in pergola**

**Custom pergola**

## AMAZING ADDITIONAL EQUIPMENT

*State-of-the-art equipment for maximum living comfort.*

### LOUVERS

Louvers are one of the key elements of the pergola, as they offer direct protection from the sun, rain, and wind. They are motorised and electrically adjustable at a range of angles (0–135°). The unique and patented rotation system works flawlessly and silently, and is completely hidden in one of the louvers.

**Louvers are available in two versions:**

**STANDARD** – flat louver.  
The basis in all versions.

**MAX** – a louver that is rounded at a particular angle. Available as an upgrade for more efficient drainage and enhanced stability when installing pergolas of above-standard dimensions.

## CHOOSE YOUR COLOUR

The **PIRNAR** pergolas are available in several hues from the selected colour chart, which will aesthetically complement your home.

### Standard colours:

		
Traffic White FS 9016	Anthracite Grey FS 7016	Glimmer Grey 80077

### Optional colours:

			
White Aluminium RAL 9006	Grey Aluminium RAL 9007	Silver Grey RAL 7001	Basalt Grey RAL 7012
			
Quartz 2 FS QUARTZ 2	Jet Black FS 9005	Purple Red FS 3004	

## LED LIGHTING

Thanks to the various forms of lighting and dimming options, you will spend countless unforgettable romantic evenings with your special someone under the **PIRNAR** pergola, or hang out with your friends and loved ones until the wee hours of the morning.

**LED lighting can be installed on the pergola's frame or selected louvers:**

---

## ENJOY YOUR OUTDOOR LIVING SPACE

### ZIP SCREENS

Thanks to the latest ZIP technology, our minimalistic and extendable ZIP screens made of strong fabrics cover large areas without any additional intermediate support. Effective ZIP screens make it enjoyable to spend hours in the hot afternoon sun. Even annoying insects, wind, and rain will be a thing of the past, as you can place an insect-repellent fabric on the ZIP screen without reducing its visibility and breathability. We offer ZIP screens with 5 % and 0 % visibility.

### SLIDING PANELS FOR VERTICAL SHADING

Sliding vertical panels can be inserted into the pergola's structure to create effective side shading, especially in sections that are most exposed to the sun. The panels are available in different colours and widths.

### SLIDING GLASS PANELS

Enrich your pergola with minimalist and functional sliding glass panels, and turn it into the perfect bioclimatic space. Create a stunning transparent glass wall that both maximises sunlight and offers effective resistance to strong winds.

---

## HAPPINESS IN THE SHADE

Exceptional architecture blurs the line between interior and the world outdoors. It elegantly connects the intimacy of your home with the feeling of happiness, as you can listen to children playing while enjoying the beautiful view from your patio.

## FULL AUTOMATION

### WEATHER SENSORS

State-of-the-art sensors automatically adjust additional equipment on the pergola according to the weather conditions. They allow shade programming and adjust the louvers by up to 135°. A special sensor immediately closes the louvers in the event of sudden rain or snow, while wind sensors effectively protect the construction from any strong gusts.

Solar sensor

Rain sensor

Wind sensor

### CONTROLLING

Modern **PIRNAR** pergolas are fully compatible with state-of-the-art automation systems. Everything can be controlled and regulated with a single remote control or even a smartphone.

**You can control the additional equipment in three ways:**

Using a standard Somfy Remote Control

Using a Somfy Nina Remote Control

Using a mobile application Somfy Tahoma on a smartphone
